

## VII. DISCUSSION ITEMS

(5:00 min)

### A. Delegation of club funding to ICC - Malik (10 minutes)

ASBCC views on the delegation of club funding.

Justin Terry believes that the clubs have some form of discretion regarding club funding. At the end of the day, proper protocol is more important.

Nate Heller said that the ICC as a whole body (being in charge of the clubs) should be able to have the responsibility to delegate finance.

Hassan Moore said there's been a shift in cultures in ICC members; ICC is developing a high level of scrutiny.

Malik Elhindi proposes we would have a discussion within ICC and then later on discuss and approve ICC minutes within the ASBCC meetings. As of now the ICC cannot pass funds, it must be AS minutes to be approved.

Thays Da Costa says ASBCC and ICC are differing bodies and ASBCC cannot approve ICC minutes.

Mostafa Ghous advises that the approval of club funding should be ASBCC responsibility and NOT ICC. Students elected the ASBCC members and therefore were entrusted with this responsibility. Decisions should fall down on ASBCC.

Nate Heller said the spirit of this idea was just to make things more efficient. A compromise should happen in which ICC should be involved to some degree.
