### A. Donations for Region Three (Include in the Budget Allocation). - (Vice President of Administration, Kaydee Miller)

Vice President of Programs, Rudrani Ghosh, moves to suspend the orders of the day so the council can hear Dr. Budd's report.

Senator, Dave Cruz, seconds

**Motion Passes Unanimously: 15-0-0**

Vice President of Administration, Kaydee Miller, will be asking for a donation from the region to send two to three more people to SSCCC. It is suggested by the Region Three Center since we are requesting money from the region, that we should create a line for this money within our budget (most colleges in California already have a line for this in their budget).

She states that we should be aware that if we have a lot of money let in our accounts at the end of this term, we are allocated less next year.

ICC Representative, Begonia Herbert, asks how much money the council will be asking from the Region Three Center.

Vice President of Administration, Kaydee Miller, responds that the AS has given the Region Three Center a budget and they will be able to allocate appropriately and there are not that many schools who are asking for donation.

Senator, Matthew Armstrong, ask how much of a surplus in the budget will be available at the end of the year. Vice President of Administration, Kaydee Miller, respond that a lot of money has been approved by the council, but not great amount much money has actually been spent

Vice President of Programs, Rudrani Ghosh, ask will will the remaining amount be been cashed out by the end of the year.

Vice President of Administration, Kaydee Miller, responds that Treasurer, Sam Cheng, needs to answer this.

Senator, Lorenzo Lewis, asks if the remaining money in the budget will it bleed over into next year's budget.

President of Administration, Kaydee Miller, respond that the money will bleed over but the council will get less money allocated to them in general.

Jasmine Martinez states that, that is not how the budget works.

President of Administration, Kaydee Miller, responds that she might be wrong but the council will look into and tasks this to the Finance Committee.

### B. March in March. - (Vice President of Administration, Kaydee Miller)

This was the first year we did not participate in March in March, but a march took place anyways.

ICC Representative, Begonia Herbert, states that March in March should continue to take place because it is important to show places like Sacramento and Washington D.C. that community colleges need recognition. Senator, Matthew Armstrong, states there is more to March in March, beside the actual march itself. For instance there is a sit down talk

with legislatures. The problem is with the walk itself because not enough people are participating for it to actually be effective. If we want March in march to continue, then we should think about if ASBCC as a body wants to be apart of it.

C. Missparoaaction of Fund 84. - (Chief Justice, Bonnie Cherry)

On Monday (4/13/2015) Mostafa came to Chief Justice, Bonnie Cherry and Vice President of Administration, Kaydee Miller, and said there was a problem with the fund. No one from the administration ever came to talk to the council about allocating \$20000 from fund 84 for custodial purposes and it was voted down by the council on January 22, 2015. Despite this, the administration has been issuing checks from Fund 84. Mostafa talked to Dr. May Chen about this issue and she she it was within the administration's rights because of a phrase that is stated in Title Five. The judicial council has already met to discuss this and they think it would be a good idea to have a meeting with Dr. May Chen, with a member of the Judicial Council as well as and a member of the AS.

Vice President of Administration, Kaydee Miller, states that most likely she, bonnie, and Treasurer, Same Cheng, will be with be going to this meeting. Jasmine Martinez suggests asking Shirley Slaughter to come to the meeting as wells. Chief Justice, Bonnie Cherry, states that she has seen estimates at Roundtable about money coming out of fund 84, but has not been able to get a definite answer about where the money is coming from.

#### VIII. ADVISOR'S REPORT

---

Mostafa Ghous

Mostafa Ghous is not present at the ASBCC meeting.

#### IX. PRESIDENT AND VICE PRESIDENT BCC UPDATES

---

Dr. Debbie Budd

She thanks us for being so involved in the campus such as regularly attending shared governance meetings and participating in 40 year Anniversary. Students Success Day is coming up and she also thanks us for our participation in that event. She asks what the AS needs from her moving forward with this event.

Chief Justice, Bonnie Cherry, states that everything has really come together for the event and just checks in to confirm what time Dr. Budd will be speaking.

Dr. Budd asks how many students will be transferring and how many will be attending the graduation ceremony as well. She is curious as to why less students choose to not participate in the graduation ceremony. Three years ago when Dr. Budd first came to Berkeley City College, there were many less degrees and certificates available for students and as result so less people walked in graduation. But many more degrees are currently available to students so she is wondering why less people still continue to not participate in graduation.

Senator, Lorenzo Lewis states that he wants to create a school wide survey for all students that will identify what services are available for each particular student on a case by case basis such as TAP and EOPS.

Chief Justice, Bonnie Cherry, states that she is aware of three separate cases in which students were told they were not eligible to graduation and each of the three instances the information given to the students was completely wrong and they were all eligible to graduate and will be doing so in May. This type of information can be very disheartening and may encourage a large amount of people not to walk.

Carlos Cortez: BCC has recently launched a Veterans' Resource Center and a Dreamers' Resource Center will also be launched very soon. There is talk about creating resource centers for single parents as well as people who have disabilities. Resource centers will allow so students to learn about resources that enrolling at BCC, student at the school and also after they leave the college. He encourage AS to be apart of developing these resource centers and eventually the goal is for them to be connected to counseling and tutoring.

Senator, Emma Carlblom asks if there is a possibility for a Queer Resource Center.

Carlos states that he has been advocating for something along the lines of a gender equity center which could support such as women going into nontraditional fields of work as well as tackle issues around sexuality and homophobia. He has been asking around BCC to who would be interested in being apart of this initiative.

Resource centers will create places spaces where students who are like minded can come together advance what is best for those students of that population.

He also reminds us that having a large graduation ceremony with many graduates can help improve how the community perceives community college.

Dr. May Chen
