V. PUBLIC FORUM

(3:00 min each)

---

This is an opportunity for members of the public to address the ASBCC on items not already on the agenda. Please be aware that there is a 3-minute time limit for each item and that NO action may be taken on any of these items. These items may however come back to the Senate for action at the discretion of the Senate.

**Michael-** There is an Issue of minutes of publicly for September 11 . This is Robert's rules of addition and it guides for keeping minutes, and it says, to record , all adopted or lost or defeated motion, name of maker and motion while I refer you to the action items, what the motion is and who put it forward. In the minutes there is no statement of the motion and what it is, no motion or favor. I do not know how to distinguish between action items, and this should be looked over by the asbcc government.

**Begonia-** Member of ice and president of a club, and notices there is no ICC rep today present today and is concern because they have been elected and should be here today.

**Arjan-** I work with local non profit program of mixed minority, for bone and stem cell members, and asked for tables, in lobby to educate the community about why it is important to register as a stem cell donor. I would really like to engage this community about this issue. We do not need additional funding but need tables for the lobby.

**John-** I'm the representative for global studies club, we asked to see Cephus Johnson and have him come to talk to our club about police brutality and his own experiences. We are asking for 200 dollars for this event. He was asked to come on October 20, also it would be great if it is held in the auditorium but if not the atrium during college hours would be fine.

**Maurice-** I am representing Phi Theta Kappa in Berkeley City College, for academic scholars, founded in 1819, what we like to do here is open opportunities to open up scholarships for students transferring. Also Phi Theta Kappa Society, helps student in transferring, and offering opportunities such as scholarships, and or valuable information they need to succeed. What i am asking you today is 350 dollars. Although we will be doing our own funding but the 350 dollars is needed for as a jump start.
