## American Sign Language Associate in Arts Degree\* and Certificate of Achievement Programs

American Sign Language (ASL) is the fourth most used language in the United States. It is the major language that the American Deaf population uses.

Berkeley City College’s ASL Program enables students to acquire the communicative competence in ASL and the cultural sensitivity needed to interact successfully with members of the American Deaf community.

Students who will benefit from this program include the following: those who wish to expand their language skills and cultural knowledge to enhance other majors (e.g., interpreting, education, social work, and psychology); those who need to fulfill a university foreign language requirement; parents of deaf children; and deafened adults. Students will develop skills which will also make them more marketable to potential employers who encounter the Deaf.
