BCC Course - New	MATH	213	Support for Statistics	Fall 2019	2	2 hours lecture	(P/NP)	Corequisite: MATH 013	Competencies and concepts needed in statistics: Arithmetic, pre-algebra, elementary and intermediate algebra, and descriptive statistics; descriptive data analysis, solving and graphing linear equations, and modeling with linear functions. Intended for students who are concurrently enrolled in MATH 13.	1702.00	As the number of levels of pre-transfer level mathematics an entering community college student must complete increases, the likelihood that the student will ever successfully complete a transfer-level mathematics course decreases according to large research studies conducted both inside and outside of California. By offering Support for Statistics the mathematics department aims to provide students with a co-requisite course with transfer-level Math 13, Introduction to Statistics. Contextualizing the curriculum and focusing instruction on the skills, methods and ways of thinking needed for understanding statistical applications is expected to ignite student interest, increase retention and success, and prepare students to succeed in their concurrently enrolled Math 13. Not for science, technology, engineering, mathematics, nursing or business majors.	New Course. CC date 10/18/18		Approved District-wide action
BCC Course - New	MATH	215	Support for Pre-Calculus	Fall 2019	2	2 hours lecture	(P/NP)	Corequisite: MATH 001: Pre-Calculus. Recommended Preparation: This course is appropriate for students who are confident in graphing and beginning algebra skills.	Review of the core Prerequisite skills, competencies, and concepts needed in pre-calculus: Factoring, operations on rational and radical expressions, absolute value equations and inequalities, exponential and logarithmic expressions and equations, conic sections, functions including composition and inverses, an in-depth focus on quadratic functions, and a review of topics from geometry. Intended for students majoring in business, science, technology, engineering, and mathematics and concurrently enrolled in MATH 1.	1702.00	As the number of levels of pre-transfer level mathematics an entering community college student must complete increases, the likelihood that the student will ever successfully complete a transfer-level mathematics course decreases according to large research studies conducted both inside and outside of California. By offering Support for Pre-Calculus, the mathematics department aims to provide students with a co-requisite course with transfer-level Math 1, Pre-Calculus. Contextualizing the curriculum and focusing instruction on the skills, methods and ways of thinking needed for understanding pre-calculus concepts is expected to ignite student interest, increase retention and success, and prepare students to succeed in their concurrently enrolled Math 1. For science, technology, engineering, mathematics, or business majors.	New Course. CC date 10/18/18*		Approved District-wide action
BCC Course - New	MATH	216	Support for Trigonometry	Fall 2019	1	1 hours lecture	(P/NP)	Corequisite: MATH 050: Trigonometry. Recommended Preparation: This course is appropriate for students who are confident in their graphing and beginning algebra skills.	Review of the core Prerequisite skills, competencies, and concepts needed in trigonometry: Geometry, transformations of graphs, trigonometric functions and applications, conic sections, polar coordinates including the complex plane and analytic geometry. Intended for students majoring in science, technology, engineering, and mathematics and who are concurrently enrolled in MATH 50, Trigonometry.	1702.00	As the number of levels of pre-transfer level mathematics an entering community college student must complete increases, the likelihood that the student will ever successfully complete a transfer-level mathematics course decreases according to large research studies conducted both inside and outside of California. BCC Course - New Non-Credit	MMART	505A	Introduction to Motion Graphics	Fall 2019	0	2.5 hours lecture, 1.5 hours lab	(SP or P/NP)		Introduction to motion graphics and 2D animation for the current industry standards: Importing source files including photographs, illustrations, video clips and 3D animation; compositing source imagery, keyframing, animating, and effects; compression and outputting for video and web; critical discussion and assessment of work on technical, aesthetic, conceptual, and philosophical level.	0614.60	This course will be part of a non-credit certificate of completion, designed to update skill sets and prepare students for the work place.	New Course. CC date 10/18/18		Approved
BCC Course - New Non-Credit	MM/DI	501A	Introduction to Digital Illustration	Fall 2019	0	1.5 hours lecture, 1.5 hours lab	(SP or P/NP)		Introduction to principles of digital illustration: Composition skills; illustration storytelling; digital illustration in the media and society.	0614.60	This non credit class provides students the opportunity to develop their skills in illustration leading to a career in the field.	New Course. CC date 10/18/18	DE	Approved
BCC Course - New Non-Credit	MM/DI	515A	Introduction to 3D Motion Graphics	Fall 2019	0	2.5 hours lecture, 1.5 hours lab	(SP or P/NP)		Introduction to theory and design of 3D motion graphics: Design and production of visual communication solutions utilizing 3D modeling, texturing, lighting, and animation.	0614.60	This course will be part of a non-credit certificate of completion, designed to update skill sets and prepare students for the work place.	New Course. CC date 10/18/18		Approved
BCC Course - Reactivate/Update/ Meta Correction	CS	015	Computer Related Mathematics and Applications	Fall 2019	3	3 hours lecture Formerly: 4 Formerly: 3 hours lecture, 3 hours laboratory	(GR or P/NP)	Prerequisite: MATH 201 or MATH 230 or Math 240 Formerly: Prerequisite: MATH 203 or Math 211D or Math 204C, Math 211A-D	Mathematical concepts in the context of computer applications: Algorithms and analysis of algorithms, numbering systems, logic and mathematical proofs (contradiction and induction), sets, relations and functions, recursion, recurrence, combinatorics, graph theory, Boolean algebra, and discrete probability. Not open for credit to students who have completed CIS 003. Formerly: Presents mathematical concepts in the context of computer applications: Algorithms and analysis of algorithms, logic and mathematical proofs (contradiction and induction), sets, relations and functions, combinatorics, graph theory, Boolean algebra, and discrete probability.	0706.00	Course is transferable to the CSU system and required for the CS certificate. BCC Course - Update	COPED	450	General Work Experience	Fall 2019	1-3	3.43-12.86 laboratory	(GR or P/NP)		Supervised employment: Acquisition of desirable work habits and attitudes; experience with potential careers. The employment need not be related to the student's educational or occupational goals. Each 75 hours of paid work equals one unit, while each 60 hours of non-paid work equals one unit. Students can earn at most 16 units through general and occupational work experience courses combined, but may re-enroll in such courses any number of times until the maximum of 16 units is earned. Formerly: Supervised employment to assist in acquiring desirable work habits and attitudes, increase educational motivation, and develop improved human relations skills. Employment need not be related to educational or occupational goals. Course study under this section may be repeated three times for a maximum of 16 units for occupational or a combination of general and occupational work experience education (including Regular and Alternate Plan and General/Occupational/Apprentice Work Experience).	4932.00	Provides an opportunity as outlined in Title 5 for working students to earn academic credit for employment. Each will complete Learning Objective form specific to their employment (sample attached to outline). Course Update with the following changes: 1. Course Description 2. Lecture/Lab 3. Student Learning Outcomes	1. Course Description 2. Lecture/Lab 3. Student Learning Outcomes CC date 10/18/18		Approved District-wide action
