Academic Support Index

- A tool for:
 - pre-identifying students who are at-risk for academic underperformance
 - program and intervention evaluation
 - more precise data disaggregation

Academic Support Index (ASI) is re-calculated annually

Demographic contributors to the ASI (Academic Support Index)

Academic Support Index of 3 or more

Grade Level	Number of 3+ ASI students**	Number of 3+ ASI Students currently Served in Interventions**	Number of 3+ ASI students still needing intervention**
9	282	198	84
10	275	180	95
11	237	136	101
12	310	157	153

^{*}Using Academic Support Index cut point of 3+

^{**} Excludes students with IEPs and Newcomers Program

Applications of the ASI

- In the fall of 2013-14 BHS screened all incoming 9th graders to identify those who had 3+ scores
- Each counselor received a list of the 3+ students who did not have a case manager (IEP or Newcomer program)
- Counselors and Student Learning Center coordinator made direct contact with all identified students during the first weeks of the semester
- Students were identified for the AP Scholars program using the ASI
