

Berkeley City College's mission is to provide our diverse community with educational opportunities, promote student success, and to transform lives.

Introduction and Directions

The Peralta Community College District has an institutional effectiveness process which consists of the following components: a District-wide Strategic Plan which is updated every six years; Comprehensive Program Reviews which are completed every three years; and Annual Program Updates (APUs) which are completed in non-program review years.

The Program Review 2021-22 timeline has been developed for each program and services to guide through the semester. Please review and work with your Supervisors to complete this Program Review.

The Program Review is intended to primarily focus upon planning for the subsequent two years and institutional effectiveness. The Program Review process directly leads to the institutional resource allocation process and budget planning for the following academic year (2022-23 PR/APU & Resource Allocation Cycle). This is an opportunity for each administrative unit, support service program and department to reflect on progress made and identify areas of program improvements to achieve student success and elimination of achievement gap that are identified in the Berkeley City College Strategic Plan 2021-26. In this process of making continuous quality improvement, there is an opportunity for each program, student services, and department to request additional resources that support achieving the stated goals.

Please email the completed Program Review to your Supervisor by [date], 2021.

If you have questions regarding other material in the Program Review, please contact your Supervisor. If you have questions regarding data, please contact Dr. Phoumy Sayavong, Senior Researcher and Planning Analyst (psayavong@peralta.edu).
