

BCC Honor Council Code - *Rough Draft*

Authenticity - We are who we are. Our goals may be ahead of us, but we are purposeful on our journey towards achieving them. Our work is our own and our thoughts are original. Our strength is rooted in our honesty.

Responsibility - We have academic goals and understand the work required to meet those goals. We adhere to scholarly and intellectual principles. We enhance our academic work by knowing where to find and how to use BCC's student services to aid in our education.

Community - We act with integrity, to demonstrate respect for ourselves, our peers, and our Community. We celebrate our diversity by sharing our experiences and working to ensure equity and success in education. We strengthen the reputations of past, present, and future Berkeley City College students by acting honorably.

Respect - We understand that every member of the BCC community brings their unique life experiences and expectations of the academic journey into the classroom. We respect the efforts made by students, faculty, and administration to promote student success.
