Peralta District received a grant from the CCC Electronic Transcript Mini Grant which allows the Peralta Community College District to participate in the electronic transcript program with institutions that also process electronic transcripts at <http://etranscriptca.org/>. We now send and receive electronic transcripts.

Verification of enrollment would be a process where a student could view the dates of attendance they have completed in the Peralta District and submit the verification of enrollment to student loan agencies and other types of enrollment request. Currently students are not able to go online to process student loan verifications, however in the future Passport will offer a website for students to go to for support on how to understand and submit the verification independently.

As Financial Aid joins the PeopleSoft System, they will gain access to the Passport system and they will be able to view the same data Admissions and Records enters in the system when assisting students at the financial aid counter.
