

# PERALTA COMMUNITY COLLEGE DISTRICT DISTRICT TECHNOLOGY COMMITTEE

---

**To:** Planning and Budgeting Council (PBC)  
**From:** District Technology Committee (DTC)  
**Date:** 21-Sep-12  
**Subject:** Recommendation regarding District-wide Email Platform

---

At the September 7, 2012 meeting of the District Technology Committee the following action item was addressed and resolved, to wit:

A motion for the DTC to recommend Gmail as the Web-based email system for the district, with the caveat that AVC (IT) Madlock will provide a report at the next DTC meeting as to the technical implications of making this move. This recommendation is based on the research work done by a DTC Steering Committee and is supported by student feedback.

Moved by Inger Stark, Seconded by Mike Orkin. Approved Unanimously.

Since this recommendation has budgetary implications, the DTC is forwarding it for the PBC's review and response.
