

## Care Supervisor – FT

Homebridge – San Francisco, CA

Salary: \$47,500 +DOE (+ benefits)

The Care Supervisor will be responsible for the coordination of in-home supportive services (IHSS) to the elderly and people with disabilities requiring assistance to continue to live independently in the community. This position works collaboratively with IHSS, on-site property management and supportive services, hospitals, and other organizations to assist and support clients in attaining their individualized goals. The Care Supervisor will work with clients using the Motivational Care Management model, complete whole person assessments, and create person-centered care plans; while supervising a team of Home Care Providers (HCPs) that provide domestic, personal, and paramedical care to clients. The Care Supervisor is responsible for scheduling all of the client's home care services, supervising and supporting HCPs, and ensuring the client is receiving high quality, consistent care in compliance with Homebridge's contract provisions, policies and procedures, and are within the scope of the agency's resources and mission. The Care Supervisor plays a critical role in helping elders and people with disabilities to remain safely living at home.

Specific roles:

- Care Supervisor
- Care Supervisor – Bilingual Spanish
- Care Supervisor – Master's Degree
