

## EHP Lab

**The Emotion, Health, and Psychophysiology Lab** at UCSF is accepting applications for volunteer research assistant positions.

Our research focuses on embodiment -- how the mind influences the body, and the reciprocal, how bodily changes influence thoughts, emotions, and intentions. Research assistants working in the lab are exposed to a variety of studies at the intersection of social psychology, emotion, and psychophysiology. RAs learn how to conduct studies, collect physiological data, and edit and score autonomic data. Our RAs work at least 10-12 hours a week for two school semesters.

This volunteer opportunity is ideal for undergraduate students or recent graduates looking to gain research experience for graduate school or medical school. Please note that while we welcome international applicants, we cannot help with the visa process.

If you are interested in applying, please fill out this application form (<https://forms.gle/b2qs7eP7kjZwyPfs9>). Any questions can be forwarded to [ehpl@ucsf.edu](mailto:ehpl@ucsf.edu).
