SOCIAL WORK AND HUMAN SERVICES

Social Work and Human Services Paraprofessional

Certificate of Achievement

The program provides a comprehensive curriculum for paraprofessionals in social work and human services. It is designed to help California meet the statewide challenges and the rapidly expanding need for health, public, and human service/social worker paraprofessionals. Students' training will allow them to become well-rounded employees who are able to participate as team members in health and human service agencies and social work settings. The program is also designed to align with various transfer programs for students who wish to continue to an Associate of Arts Degree in Liberal Arts with an emphasis in Social and Behavioral Sciences or the Associate Degrees for Transfer in either Psychology or Sociology.

Career Opportunities

Paraprofessional capacities in social work and human services allow students to pursue entry-level positions in community health organizations, nonprofit social service agencies, or governmental social work departments.

Students are advised to consult with a Berkeley City College Counselor and/or the Social Sciences Department Chair for additional information and to verify requirements.

Required Courses		Units
HLTED 1	Exploring Health Issues	3
HUSV 117	Introduction to Behavioral Health	3
HUSV 118	Introduction to Social Work and Human Services	3

Recommended Course Sequence

You can use the following pattern to complete a Certificate of Achievement in Social Work and Human Services Paraprofessional. This is only one possible pattern. If you wish to earn a certificate, you must participate in the Student Success Program (Matriculation), which includes assessing academic skills and developing a Student Education Plan (SEP) with a Counselor. This plan will map your sequence of courses to help you complete your degree regardless of the semester you begin classes.

Program Learning Outcomes

Students who complete the program will be able to:

- Demonstrate a fundamental knowledge of the role and scope of entry-level paraprofessional employment in social work and the human services fields.
- Articulate an understanding of the theories and models used to theorize individual and collective behavior as related to social services.
- Evaluate various social work agencies and human services programs.
- Describe the ethical and legal issues confronted by social workers and social service providers.

Bridge to Community Health Worker Careers Certificate of Completion

The bridge to community health worker careers certificate is a 105 hour non-credit certificate option designed for students who plan to pursue a career as a community health worker (CHW). The certificate enables students to gain exposure to various career options as a community health worker and will develop skills necessary to enter volunteer/internship positions or paraprofessional employment in the field. Many students will wish to continue
